WILMINGTON'S PRIZE WINNING NEWSPAPER

VOL 9 NO 10

NORTH WILMINGTON, MASS. MARCH 10, 1960

PRICE 10 CENTS

\$6000 GRANT FOR URBAN RENEWAL

NO 'CONTINGENCY' MONEY

The Wilmington Housing Authority, Tuesday, received a grant of \$6000 from the Region One Headquarters of the Housing and Home Finance Agency of the Federal Government, in order to complete the 'preliminary planning' of the Wilmington Urban Renewal project.

The grant was announced Tuesday evening by William Agreeable Smith, who has recently been re-elected chairman of the Housing Authority (to take effect March 11th.)

In making the announcement to a packed hall, in the Old Age Housing Development, during the Urban Renewal Forum, Smith said that the work still had to be completed by March 31st, in spite of the fact that two weeks with no work had elapsed.

Smith made his statement during a series of questions which were asked about the \$16,200 requested for completing the planning.

The \$6000, Smith told the audience was absolutely necessary to complete the work, but the remaining \$10,200 was for 'contingencies'. He was pressed if there were any other funds, and he said 'That is all there is - there ain't any more'.

100 People at Forum

The forum was well attended, with about 100 persons filling the hall. It was conducted by Chairman Ralph Green, of the Baldwin Civic Association, who had a long list of questions to ask.

Smith was practically the only member of the Authority who stood up and answered questions. During the meeting Ed Sullivan of Grove Avenue stood up to ask if Mr. Smith had seen the questions prior to the meeting, and when told that Smith had not, he remarked that he thought the procedure unfair.

NORTH WILMINGTON RESIDENTS OPPOSE SPENDING MONEY ON MIDDLESEX AVE CURVE

Atty Paul Niles, Fred Jaeschke and Dick Keane, of North Wilmington have told the Board of Selectmen that they oppose the spending of \$10,000 to widen Middlesex Avenue near the No. Wilmington Postoffice.

All three men appeared at the Selectmen's meeting Monday night, with Niles being in effect the spokesman.

Washington May Pay
Niles told the Board that in

the past week, while in Washington DC he had taken time to visit the office of the Bureau of Roads.

Assistant Chief Engineer Dillon, of the Bureau had agreed with Niles that the responsibility for correcting the dangerous curve in No. Wilmington did not lie with the town of Wilmington. When Niles told of the six accidents at the new curve, in five months, Dillon stated that the town had a very strong case.

TOM DEL VISCO NOMINATED BY ELKS LODGE AS 'MOST VALUABLE STUDENT'

Thomas Del Visco, of Marcus Road, No Wilmington has been nominated by the Tewksbury-Wilmington Edge of Elks as the 'most valuable student in Wilmington High School'.

The nomination has been sent to the Massachusetts Lodge, for evaluation, which may lead to a scholarship.

Del Visco, a resident of Wilmington for 18 months, is the son of Mr and Mrs Tom Del Visco. His father is a contractor. He formerly lived in East Boston, and attended the Boston Latin High School.

He hopes to get an appointment to the US Coast Guard Academy, or to attend either Tufts or Northeastern.

SELECTMEN & WHA ASK McLEAN TO RECONSIDER RESIGNATION

Frank McLean, of Salem Street has been asked by members of both the Wilmington Board of Selectmen and the Wilmington Housing Authority to reconsider the resignation which he submitted to Town Clerk Esther Russell, Tuesday afternoon.

McLean's resignation was announced Tuesday night, at an Urban Renewal Forum being conducted by the Baldwin Civic Association.

McLean, after the meeting, stated that he had resigned so that he could feel 'morally clear' if he felt impelled to make any personal observations about Urban Renewal.

Both Selectman Nicholas De Felice and William Agreeable Smith have asked McLean to reconsider.

THE COMING TOWN MEETING

Our Finance Committee, this year, has done
an excellent job on its recommendations to the
Town, for the annual Town Meeting. The meeting,
as everyone knows, starts at 1:30 pm Saturday
in the High School gymnasium, and with luck we
should be able to finish handily on the same day.

We recommend a study of the foreword by the
Finance Committee. It is clear, concise, and
to the point, and very well written.

The Finance Committee believes we can go out
of the meeting with a \$67 tax rate. Since their
report was printed we have learned that the
Available Funds is increased by over \$30,000,
so we should be able to walk out with a \$66 tax
rate.

Our first point of disagreement with the
Finance Committee et als comes in Article 5,
"expenses of the town". This is always an arti-
cle for a lot of discussion, and takes time.

The Fire Department, we believe, will ask
for an additional three permanent men, and we
think they have a good point. The cost, at the
present salary rate, will be about \$13,770 a
year.

In the past seven years five new additional
pieces of equipment have been added to the Fire
Department, such things as the Ladder Truck,
the Rescue Wagon and the Ambulance, without any
increase in personnel. As things now stand, if
the ambulance and the rescue wagon are sent out
on a call, which often happens, there is only
one man left in the station.

When the Fire Department says they should
have one additional man for each shift they are
arguing a good case. We'll buy it.

Article 13, it will be explained, should
have said "School Grounds Maintenance". The
idea of buying a truck is so that power lawn
mowers, etc can be moved from school to school.
It is cheaper than buying equipment for each of
the schools.

But we cannot see Article 17. The Town Ma-
nager wants to spend \$5400 to buy a sidewalk
snow plow. It's a nice idea, but let's build
some sidewalks first.

The \$2000 which the Finance Committee re-
commends under Article 19 for street signs will
buy part of the signs needed, but we understand
that the Planning Board will go along, and ask
for the rest of the money next year.

The \$2000 in unpaid bills, this year, is all
for charity cases for which the town did not
get billed in time to pay them legally in 1959.
This of course, is under Article 22.

Article 24 is one in which the Permanent
Building Committee wants money to prepare plans
for a new Intermediate School. They might pos-
sibly ask for \$10,000, which would still be
reasonable.

Article 26 asks for the establishment of a
Council for the Aging. It has been pointed out
facetiously that even 10 year old boys are ag-
ing every day, but everyone knows what is meant
by the phrase.

TM Cecil O. reports that he had good exper-
ience with such a council in Mansfield, serving
without pay, and appointed by him.

Article 27 seeks to have the town adopt the
special legislation passed last year by the
Legislature, for our operation of our sewers.
It is a good article, and should be adopted by
the town.

There are people who don't understand the
purpose of the legislation. We have met people

OOZE

Don't you think it rather queer

That they all sound so sincere

Selling ketchup, soap or beer?

Who ever they are against it, because, for in-
stance, we need money to pay for schools.

The cost of the sewerage system to the Town
of Wilmington is going to be very little. It is
primarily an industrial district sewer, and
will be paid for by the industries that use it.
Without the sewer we will be behind the eight
ball, in efforts to get decent industries, and
our taxes will go up still more.

But this article has nothing directly to do
with costs. This is for the local, i.e. Wil-
mington, operation of the sewers - how we are
going to do it, who is going to be in charge,
etc etc. As this was passed in the state legis-
lature, the TM can either have the Water Com-
missioners act as Sewerage Commissioners, or
else appoint a Board of Sewerage Commissioners.

Articles 28 through 31 should be adopted
without discussion, as far as we are concerned.
We voted it once, and we should confirm our
vote.

Article 37 is a different thing. We should
not spend \$10,000 for the proposed work on
Middlesex Avenue. Instead let's give the Sel-
ectmen a vote of confidence, tell them to take
up the problem with Washington, and if maybe
instruct them to have a sign erected with lumi-
nous paint saying "Dangerous Curve - Slow Down
and Keep to the Right". There are plenty of
signs there, but not one word is said about a
curve - which is the thing that causes the ac-
cidents.

Article 41, we predict, will have very lit-
tle discussion this year. It was amended to
death last year, and the Attorney General re-
fused to approve. As it is now written, we are
assured, the Attorney General will approve.

We approve of Article 42, restricting used
car lots. So, we suspect, does nearly everyone
else. And the same thing goes for Article 43.

Article 44 seeks to have the De Moulas prop-
erty rezoned to General Business. The idea is
to keep somebody from sneaking in and building
a boiler factory while the De Moulas Brothers
are not looking.

Article 45 is a case where we are sorry for
some men who own some property - but the neigh-
bors aren't. The land is a ten acre tract on
Woburn Street, near Eames, which is now neither
fish nor fowl. It is part industrial, and part

TOWN NOTES

It was only 20 inches
The snowstorm of March 3rd
and 4th, which blanketed New
England, and brought some of
the larger cities and towns to
a dead stop was, after all,
only 20 inches of snow, ac-
cording to the pundits of the
Wilmington Water Department.

The Highway Department did a
good job, far better we think,
than was done in contiguous
towns, but, like the apple,
there is always someone who
can find a worm.

In our case, the worm devel-
oped by telephone. We were the
natural outlet for pent up
emotions, as people waited for
their street to be plowed out.
They called us after they had
tried, they said, for 12 hours
to get through to the Highway
Department by telephone.

Some of our telephonees were
ungracious enough to suggest
that the boys in the Highway
Department office just took
the phone off the hook and
left it off.

We went out and investigated
many of the streets that were
reported unplowed. We can say,
to Jimmy White's credit, that
in practically every case a
snow plow had at least made a
pass on the street, but some
of them were practically im-
passable.

But there were a couple of
places where Jimmy did slip,
and we can report it, with,
shall we say glee?

The boys in the Highway De-
partment worked hard, let it
be understood. We know one man
who got home at 2:30 am., took
off his shoes, had a cup of
coffee, and then went back to
work at 3:00 am.

But, as we say, there were a
few streets, the ones that are
now dead ends, going over the
new Route 93. Somehow the boys
forgot that those streets ex-
isted.

And, on Sunday afternoon, we
had a call from a lady on
Cleveland Avenue, off Swain
Road. Her baby was sick, and
the street hadn't been plowed.

We told Jimmy White, and he
didn't believe it - until he
looked himself.

So we took some pictures, and
if Jimmy doesn't mind a little
joke we are going to entitle
at least one of them, for this
week's paper after the famous
poem of Whittier - "Snowbound".

We might presume to make a
suggestion, for the next snow
storm.

Put a couple of clerks in the
town hall, to answer the tele-
phone. There are plenty of
phones there, and the messages
can be relayed.

Nothing makes a citizen more
exasperated than to try for 10
or 12 hours to make a call to
the Highway Department, and
always get the "busy" signal.

Quality canned goods as far as your eye can see. With the variety Star offers, you could prepare 87 different meals using canned goods alone and never repeat yourself!

Reading bride can't believe her eyes as she walks through New Star Market in Woburn Plaza

You have never in your life seen a supermarket like this. When you do, you'll see why it's called "The Star of the Sixties." Some of the features are so new, they've never been installed in a supermarket before.

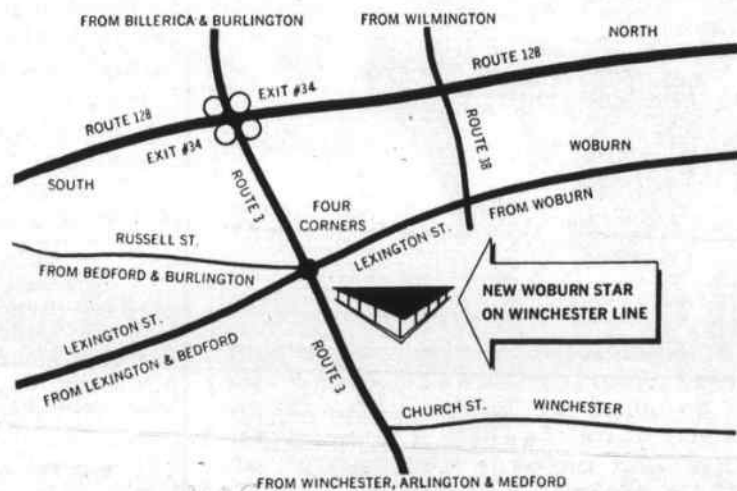

Take the air screen refrigerator, for instance. It puts milk and eggs within easy reach so without having to bend over, or pull heavy doors open, you can make your selection.

Another Star innovation is the Barbeque Pit, which offers you chickens, ribs and pies all cooked (right before your eyes), all ready to eat and enjoy.

This new Star Market also displays the largest selection of famous name groceries in suburban Boston. In every category: canned goods, easy mixes, soaps, frozen foods, bakery goods, paper products, you'll find all the brands you know, including Star's own quality Food Club products.

Other Star-bright features: a large plant and florist shop, a large selection of housewares and of home and beauty aids, ten check-outs that give you quick service and Star's famous conveyor belts that take your groceries out to your car.

These are more reasons why you'll eat better by far if you shop at Star.

of them were practically im-
passable.

But there were a couple of
places where Jimmy did slip,
and we can report it, with,
shall we say glee?

The boys in the Highway De-
partment worked hard, let it
be understood. We know one man
who got home at 2:30 am., took
off his shoes, had a cup of
coffee, and then went back to
work at 3:00 am.

But, as we say, there were a
few streets, the ones that are
now dead ends, going over the
new Route 93. Somehow the boys
forgot that those streets ex-
isted.

And, on Sunday afternoon, we
had a call from a lady on
Cleveland Avenue, off Swain
Road. Her baby was sick, and
the street hadn't been plowed.

We told Jimmy White, and he
didn't believe it - until he
looked himself.

So we took some pictures, and
if Jimmy doesn't mind a little
joke we are going to entitle
at least one of them, for this
week's paper after the famous
poem of Whittier - "Snowbound".
We might presume to make a
suggestion, for the next snow
storm.

Put a couple of clerks in the
town hall, to answer the tele-
phone. There are plenty of
phones there, and the messages
can be relayed.

Nothing makes a citizen more
exasperated than to try for 10
or 12 hours to make a call to
the Highway Department, and
always get the 'busy' signal.

rothy girls to lose their

Quality canned goods as far as your eye can see. With the variety Star offers, you could prepare 87 different meals using canned goods alone and never repeat yourself!

Reading bride can't believe her eyes as she walks through New Star Market in Woburn Plaza

You have never in your life seen a supermarket like this. When you do, you'll see why it's called "The Star of the Sixties." Some of the features are so new, they've never been installed in a supermarket before.

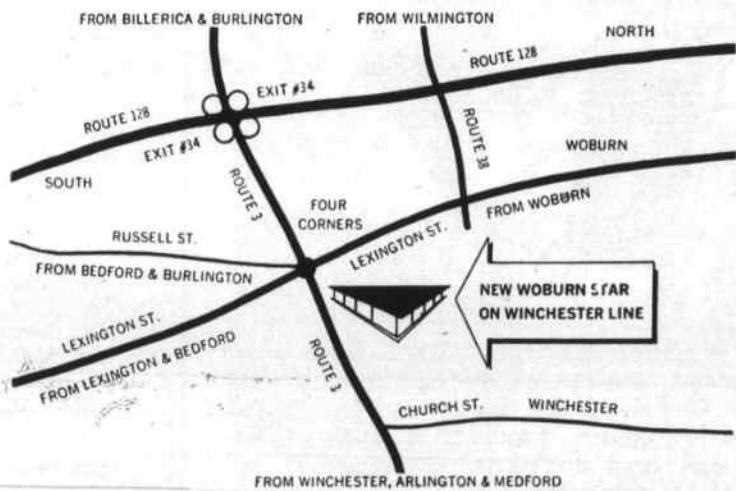

Take the air screen refrigerator, for instance. It puts milk and eggs within easy reach so without having to bend over, or pull heavy doors open, you can make your selection.

Another Star innovation is the Barbeque Pit, which offers you chickens, ribs and pies all cooked (right before your eyes), all ready to eat and enjoy.

This new Star Market also displays the largest selection of famous name groceries in suburban Boston. In every category: canned goods, easy mixes, soaps, frozen foods, bakery goods, paper products, you'll find all the brands you know, including Star's own quality Food Club products.

Other Star-bright features: a large plant and florist shop, a large selection of housewares and of home and beauty aids, ten check-outs that give you quick service and Star's famous conveyor belts that take your groceries out to your car.

These are more reasons why you'll eat better by far if you shop at Star.

400 Cambridge St., Route 3 on the Woburn-Winchester line

What the well-dressed dinner table wears — A Star plant or a Star bouquet. Mrs. David Johnson chooses a bright Azalea plant at the florist shop. Star florists will make up special centerpiece items too.

Barbeque pit saves the day for a young bride, not yet sure of her own cooking. It's wonderful too, for busy mothers and for everyone who loves good eating!

first tournament game, state-wise, this season, after having gone to the half-way mark a year ago.

But the team they played Sunday was the State CYO Championship team for three years running. Our girls were up against real champs. And, we are told by one of

our sportsmen, the Immaculate Conception team kept their first string players in for the whole game. Anyway, they weren't taking any chances against those Wilmington players. No telling what will happen if Wilmington is involved.

The Mail Went Through
As everyone knows, and it doesn't need telling, last Friday we had a little snow - but the mail went through. Many postoffices, we hear, did not deliver, but Postmaster Henry Porter got out his horsewhip, and drove the boys out into the raging storm. He estimates that 75% of the mail was delivered, and the rest was delivered Saturday morning. Henry went out and delivered mail too. He did about 200 homes, as the mailmen use the verb 'did'.

On Clark Street, at the LeBlanc home he had his adventure of the day.

One of the political flyers blew out of his hand and into a snow pile beside the door step. Henry leaned over to pick it up, and slipped, landing in a pile of snow that covered him completely. He came up with his inside collar full of snow, but the flyer in his hand!

Frank Hagerty Voted
Francis J. Hagerty, our Selectman who is now working in Connecticut came home Friday afternoon, through the snowstorm, to vote on Saturday.

He says he was able to get along without too much trouble until he got into Burlington on Route 128. Then he found the cars piled up, but he got through.

Frank, incidentally, says he is not going to resign from the Board of Selectmen until he has succeeded in selling his home on Hathaway Road.

Snowshoe Artist

Clayton Buck, who is the Water Department engineer didn't let a little snowstorm bother him, or stop his daily inspection of the Barrows Pumping Station. He just hiked in on snowshoes his grandfather used as a boy.

OIL PORTRAIT OF CHRIST BY DR JOHN SILVERS

Dr. John Silvers, Avoc Nuclear Scientist, painted a portrait of Christ, which is being exhibited in the narthex of the Congregational Church, daily during Lent from 7 am to 4 pm

The photograph was taken in the Methodist Church last Sunday, and does not do justice to the painting.

PROPOSE GRAVEL PIT IN NORTH WILMINGTON

The Board of Selectmen, Monday night, listened to a proposal by Robert Jones, of No. Reading, to operate a gravel pit off park Street, in No. Wilmington.

The discussion was tabled pending further information

MIDDLESEX AVE.
(Fr Fr Pg)

Niles advice to the Selectmen was to again write a protest to the Massachusetts Department of Public Works, and if no action was forthcoming to write to the Bureau of Public Roads, directly.

'Speed Trap' Suggested
Instead of spending \$10,000 which the town would never get back, it would be better, as a temporary measure, to have a 'speed trap' at frequent intervals, in the area, with the Wilmington Police doing the work.

The speed trap of last fall, Niles said, worked wonders for a few days.

Widening out the road would, he said, make things worse, and cause the accidents to occur a little further down the street.

ONE PHASE OF SIGN WAR IS OVER

The Wilmington Board of Appeals, last Thursday evening granted a variance to the Shamrock, on Main Street, for an oversize sign on its building. The sign has been the subject of much comment in recent months, and of letter writing by the Board of Appeals.

The hearing, held on a stormy night, saw Harold Foley, owner of the Shamrock, and the Building Inspector present, but no one from the Planning Board.

The variance was granted on the basis of financial hardship.

UNIVERSITY OF LIFE PROGRAM HAS SIGNIFICANT BEGINNING

The University of Life Program sponsored by the Wilmington Council of Churches being held in the Wilmington Methodist Church, Sunday evenings during March at 7 p.m. had a significant opening session on Sunday evening, March 6.

A devotional period was led by the President of the Council, the Rev. Richard E. Harding. Mrs. Raymond Gardner was the organist and Mrs. James Todd, soloist.

The courses, 'Art As Christian Experience' taught by Rev. Earl Saunders a graduate student in the field of Religion and the Fine Arts at Boston University; 'The Search for Spiritual Survival' taught by the Rev. Donald Hickman, pastor of the South Tewksbury Methodist Church; and 'Jesus and the Significance of His Cross' taught by Dr. George Parker, a post graduate student at Harvard University, were well attended. The response and enthusiasm to the program was felt by all in attendance.

The Youth program 'Will I be Worth Marrying?' for all Senior High Youth, began with the theme, Attitudes-Sweet or Sour. Over sixty young people from the community were in attendance.

The program will continue next Sunday evening, and those persons unable to attend last week are cordially invited to begin this Sunday evening. The Rev. Robert Sanders of the Wilmington Congregational Church will lead the devotional period, and members of the Congregational Couples Club will provide the refreshments. A cordial invitation is again extended to the people of Wilmington and surrounding areas to share in this University of Life Program.

residential, and the owners can't sell it for either use. Perhaps it will end up as being all residential - we don't know.

Article 46 seeks to have small dry cleaning plants permissible in a General Business district. Amendments will be offered to restrict these places to the first story, and to non-inflammable materials, which should meet the town's approval.

Article 47 is the case where John Elia and his friends don't see eye to eye. John wants a business zone. Colonial Style, worth \$200,000 on West Street. His neighbors, or some of them, dont.

Article 48 is a simple one, and should have no argument. The idea is to zone an already existing market on Burlington Avenue, near the Burlington line, into a Neighborhood Business Zone.

Articles 49 through 52 seek to take the present "booby traps" out of our By Law, so we can hold a legal Town Meeting once in a while.

Article 53 is for a Health Laboratory for the Board of Health. It will pay for itself in three years, and is to be located in "Pump" Smith's barn, on Woburn Street. Mr. Smith will get \$1 a year rent, which we hope he will include in his income tax report.

Article 54 is to provide a memorial for the late Dr. Dudley Buck. No argument.

Article 55, we suspect, will provide an argument. Mr. McLean, the proponent, tells us that there is no chance of having this sum grow as the years pass on - at least as things now stand. The Finance Committee has disapproved, but at least listen to the arguments.

Article 56 is our own. It may be possible to provide an all-weather skating rink, for this skating mad town, under the provisions of the General Laws, Chapter 40. We are going to ask that only one member of the committee be a member of the Skating Club, the other four being persons chosen by the Town Manager. The idea is to see if it can be done - and we aren't asking for any money.

Finally, a word on how to use your Jim Dandy Pencil and Paper Pads to figure out the taxrate without any trouble at all.

Every \$25,000 you vote in the Town Meeting will increase the tax rate \$1.

DON'T KICK THE GIFT HORSE IN THE TEETH

The village pundit and the village fool may both feel an urge, in the Saturday Town Meeting to expound on the subject of Urban Renewal, and the chances are that the village fool will get the most applause, town meetings being what they are.

We just hope that not too much time is spent on Article 29. The issue is simple enough namely do we ratify a vote taken three years ago.

In good conscience we must ratify it, and then we can sit back to watch the chips fly, if there are to be any.

In other words our voters will be wise not to kill Urban Renewal. If it is to be killed, let the Housing Authority and the Board of Selectmen be the executioners.

"THOSE WHO MOURN" LENTEN SERMON AT METHODIST CHURCH
The Rev. Richard E. Harding will preach his second Lenten sermon on the Beatitudes of Jesus using as his text, "Blessed are they that mourn for they shall be comforted." The services of worship will be held at 9 a.m. and 10:30 a.m. At the early service Mrs. James Todd will sing "O Divine Redeemer" by Gounod, and the newly formed Youth Choir under her leadership will sing the Offertory Anthem. The Senior Choir, under the leadership of Mrs. W. T. Staveley will provide special music at the 10:30 a.m. worship hour. The response to the two services of worship on Sunday, March 6 is an indication that

there was a need in the church for them. Mr. Harding announced that in spite of the traveling conditions and parking facilities around the church that the response was beyond all expectations. Families are reminded that the church school program is as follows: 9 a.m. Nursery for infants and small children, classes for children three years of age through grade eight, and an adult Bible Class. At the 10:30 a.m. worship hour there is a nursery, and classes for children through grade three, and young people of grades nine through twelve. For further information call the church office, OL 8-4519.

URBAN RENEWAL
(Fr. Fr. Pg.)

Smith earned the admiration even of his enemies, during the nearly three hours he answered questions. He refused to become irritated, and spoke only with a smile on his face. James P. Donahue, also a member of the Authority, appeared

briefly, in answer to a request by Atty Roland Wood, but then returned to the Authority office. He was conducting negotiations in the next room with William H. Ballard, of the William H. Ballard company of Boston, and which company is supposed to have 30 days, after the completion of plans to work on a Re-Use Appraisal but which will have to do the work before March 31st.

Ernest B. Rice, chairman of the Authority was in the office, but never appeared in the hall.

What Will Happen?

One of the many questions that were asked from the audience was about the effect of the vote, next Saturday, on the Urban Renewal questions in the Town Meeting.

Bob Ramsdell of Glen Road was one man who put the question three times, in three different ways.

Each time Ramsdell asked the question it was sidetracked, but he finally got through, and after a lot of discussion it was practically a unanimous opinion of everyone present that the only thing to be done at the Town Meeting was to vote to ratify the 1956 vote.

Will WIA Turn Over Power?
Another question that was frequently asked, mostly of William Agreeable Smith, was "Would the Housing Authority consent to turning over its powers on Urban Renewal to an Urban Renewal Authority?"

Smith, speaking as an individual, said he was not in favor of turning over the powers of Urban Renewal to a separate Urban Renewal Authority (presumably to be appointed by the Selectmen or TM). Smith's reasons were that he felt that the group in charge of Urban Renewal should be elected, and thus responsible to the people. During the discussion it was developed by Urban Renewal Director James Franklin that an Urban Renewal Authority would have "broader powers", and further that it would not

necessary for a Housing Authority to give permission, except that in the case of a place where the work had already started it couldn't be done.

The question had already been discussed with the HHFA, he reported, on a 'basis of anticipation', he reported. He stated that, in Wilmington, the time would not permit.

To re-negotiations that would be necessary, he said, would take from 3 to 6 months, with the Federal Government. Besides this, it would increase the costs, he pointed out.

It was at this time that McLean was asked to make a statement, and he announced that he had resigned.

He finished his statement on resignation by remarking that as far as Urban Renewal was concerned 'It is the end result that counts - who does it is immaterial'.

Finances
Ralph Green asked, at one point, why there was no report of the finances of the Urban Renewal project, in the Town Report.

Franklin stated that a financial report had been prepared but that it had been thought, in the best interests of Urban Renewal not to print it at this time.

Peat
Frank Leavitt, of Hathaway Road, a former member of the WHA asked about reports that a lot of peat had been found in the area. He wanted to know how many acres were unusable, if this was so.

Franklin drew a sketch on a blackboard which had been borrowed for the occasion, showing peat in the center of Rotary Park, and leading down to Main Street. At one point in the drawing he indicated a depth of 16 feet, and at another he indicated a depth of 14 feet of peat, both being in the area nearly up to the Walker School. Further south, in the back of the Masonic Hall, Franklin indicated a depth of 12 feet.

Other than these three places he said, the depth averages four feet or less.

No acres had been blocked out he said, because of this, and further stated that there had been discussion with a private developer of the possibility of a skating rink in the peat area.

Anthony Zeoli (Ames News): Did you take these boring before or after you drew all those plans.

Franklin: After, at the request of the Federal Government.

Zeoli: The first thing I do when I buy land is to bore for ledge.

Agreeable Smith: Our program is spelled out for us, by the Federal Government - its on a chart - when we do it, and when we can't. Ordinarily the borings come in the second phase of the project, and here they came in the first, because (the) New York (office) asked us to.

He indicated that the asking had come as a result of some repeated requests and remarks **Selectmen Speak**

Selectman Nick De Felice spoke, in the latter part of the evening, to give story of the meeting of the WHA and the Selectmen on February 29th.

The meeting was that at which the WHA had originally requested the approval of the \$16,200 request.

'It was at that meeting', De Felice said, 'that certain members of the Housing Authority threatened to resign - and the only reason they didn't

was because Mr. McLean asked them to at least put it off until the regular Tuesday meeting.

The news of the borings was no surprise to him, De Felice said. 'We brought up the subject long ago, right in this hall - we asked them if they didn't anticipate water problems - we got no answer - we asked for costs - we got no answer.'

'I have yet to find one business man in Wilmington Square who is willing to tear down his property and become a tenant.'

'Mr Franklin was going to direct Washington to sue the town for \$62,000 - the little boys threatened to resign and only McLean kept a cool head.'

'Now we have the DeMoula development only 1/8th of a mile away - and First National wanting to build on the other side - its fantastic to think Urban Renewal could take place now in Wilmington Square.'

Kidder: Mr De Felice has expressed my thoughts too.

'Who is going to take the credit for getting the \$6000?'

Smith: You know me - I would perhaps like to - but it was done by Mr. Groberg in the New York office. We asked him if there was any possibility of getting enough money to finish the first part of the project.

'As a Housing Authority we are not getting a fair shake.'

Kidder: Did you solicit the money?

Smith: We asked him if he thought it could be done.

Kidder: This is part of the money that the Selectmen did not feel should be used. The Town Counsel agreed, the Chairman of the Finance Committee, the Town Manager and the Planning Board and yet they (i.e. the WHA) went ahead.

Smith: We were unable to come up with the figures that you wanted because we have to follow the Federal pattern. Urban Renewal is not started to build a shopping center, but to correct a problem.

The Planning Board consultant was the one who said there was a problem in Wilmington, and the answer to that problem was Urban Renewal. This is why we undertook the project, and all we are doing is to bring out an answer as indicated by the Planning Board.

No Closed Meetings

A few minutes later the discussion involved the exchange of information again during which Smith declared that the Housing Authority never held closed meetings, and that the 'records were open to anyone'.

De Felice: I was requesting figures three weeks ago. I asked Mr. Franklin for a break down - he had to ask the Housing Authority for permission, and we never got them.

Smith: He is an employee of the Housing Authority - when I want information I ask a Selectman.

Wood: Mr. Smith is taking a lot of abuse - Mr. Donahue should be here.

It was at this time that Joe Courtney returned the discussion to its previous question, about ratifying the vote at the town meeting.

'It was indicated that the bonding attorneys would not ratify any bond issues because of possible flaws in that 1956 Town Meeting - I understand that the Housing Authority has contrary legal advice, and that ratification isn't necessary.'

Harold Chase, Marcus Road: It seems to me the best thing to do is to ratify the vote, and give a public appearance to

the Federal Government of approving. The ratification really means nothing until the final vote comes up.

Donahue: If you do go for it, it is to me a vote of confidence.

Courtney: Somebody could amend that resolution, and then the fat would really be in the fire.

Merchants Stand
Kidder wanted to ask two questions about the project. First he requested all the owners of businesses in the project who would like to have Urban Renewal to stand. No one did.

Then Kidder asked owners who would, if given the opportunity to improve their own property would do so, to stand.

There were six owners present and all stood up.

WILMINGTON WOMEN'S CLUB GUEST NIGHT

On Friday evening, March 18, the Wilmington Women's Club will hold its annual Guest Night. Each member is urged to bring at least one guest, as this is always a very enjoyable evening. The program starts at 8:15 p.m. This year we are very privileged to have William Stockdale, well-known traveler, author and lecturer, present his full-length color motion picture 'Alaska - the 49th State.' This is the exciting 'inside' look at our newest and largest state. The film begins with the trip northward over the famed Alaska Highway. There is a tour of the vast gold fields, a visit to the salmon-fishing industry on the Kenai Peninsula, and an intimate look into the farming region of the Matanuska Valley. There is also the thrill of flying above the Arctic Circle to visit remote Eskimo villages, seeing flowers as high as rooftops, and filming the proud animals of the untamed North. A trip to McKinley Park adds scenic splendor to the film, and a further look at Alaska's wildlife.

Mr Stockdale's film lectures have been enthusiastically acclaimed by America's most discerning audiences, and the Women's Club is pleased to have the opportunity to offer this very timely program for the benefit of its members and their guests.

There will be a coffee hour after the program, and refreshments will be served by Mrs Gilbert Butt and Mrs Frank Leavitt and their committee.
